

Please join us for a series of
COMMUNITY MEETINGS
as part of these two efforts

the PRINCE WILLIAM SOUND
Marine Trail

communities collaborating to connect the Sound

Alaska State Parks, Chugach National Forest, National Wildlife Federation (NWF) and their many partners are exploring the concept of a Prince William Sound Marine Trail, a world-class water trail along the coast of Prince William Sound. This collaborative community effort works to support sustainable forms of tourism while protecting the Sound's fragile environment.

Prince William
Sound Stories

sharing the experience of
Alaska's Prince William Sound

Prince William Sound Stories is an effort of the U.S. Forest Service and Alaska Geographic to collect compelling, dynamic, conservation-minded, and community-supported stories and information into a web-based, go-to portal for locals, Alaskans, and the world.

**PWS STORIES + MARINE TRAIL
